

Humbug bag with Valerie Nesbitt

These are guide sizes for fabric:

- Small – with 9" zip - 10" x 7"
- Medium – with 12" zip – 13" x 9"
- Large – with 14" zip – 15" x 11"

Here is a list of the basic sewing sequence:

Fabric needs to be the depth of the zip you are going to use

If you are going to prequilt or add stabilizer you need to do that first

Install zip – either exposed lace or hidden regular

Decide on which edge the hanger is going to be and fix into place - or this could be attached to the zipper pull.

Stitch along bottom edge which is flat – avoid the metal bits of the zip

Form top edge into a peak and stitch

NB: make sure the zip is open!!!

Avoid the metal bits of the zip
