Sew the two sections together

It's that easy!!

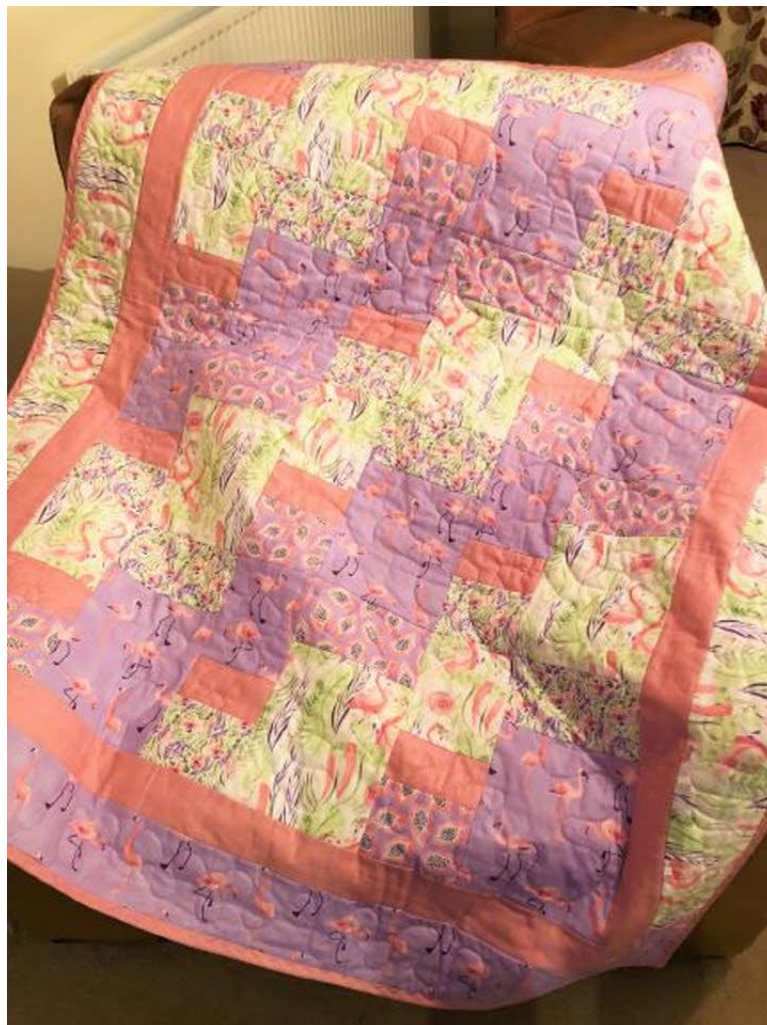

You can also attach blocks 1 to 3 to the right hand side for a change of layout. You can then use the blocks however you like.

For the quilt on the front page we chose to add sashing between the blocks and around the edge which was cut 2½" wide.

For the quilt below we pieced the blocks without sashing then added a border (pink) cut 2½" wide then a floral border to the sides and a different floral border to the top and bottom.

You could also try turning some of the blocks upside down or rotate them 45 degrees each time – just play with them and see how they look.
